FOUR BODIES FOUND AT JOHNSTOWN.

The Indian Government has sent two engineers to investigate the American methods of transporting crude petroleum with a view of developing the Asiatic oil fields. Four more bodies were recovered at of his former office. Johnstown yesterday. Lightning's freaks

prove costly in Ohio. PEPECIAL TELEGRAM TO THE DISPATCH.I

LIMA, O., August 14.-Two engineers, representing the Indian Government, were here to-day investigating the process in use for producing and handling oil. They were G. B. Reynolds, of Bombay, and R. A. Townsend, of Beloochistan. They are looking into the methods of transportation of crude petroleum with a view of contracting for necessary machinery, tank cars and storage tanks to go to India.

The oil districts of Asia have not as yet been developed to any great extent, but will now be pushed by the Government. The crude oil will be used as fuel at first, but may be refined later on. They were greatly interested in the operation of the enormous pump at the Standard's Chicago station. Prof. Orton, State Geologist, says he lately analyzed a quantity of Ohio refined oil and that it is equal in every way to the best Pennsylvania production.

A Mob Brenks Into a West Virginia Jail and Releases the Prisoners.

PETECIAL TELEGRAM TO THE DISPATCH.1 CHARLESTON, W. VA., August 14 .- A special from Braxton court house says a mob visited the county jail on Tuesday night, drove off the officers and made an attack on the jail wall with crowbars. An entrance was effected into the jail and Henry Fisher and Lafayette Prunty were taken out and set at liberty. This action is hard to understand, as both men were guilty of

serious crimes.

Fisher murdered a man named Christie in June, and Prunty is charged with em-bezzling funds to a large amount.

Whisky Proves Itself an Infallible Remedy for Sunke Virus.

ALTOONA, PA., August 14 .- One of the latest snake stories comes from Granville. Pa., and is true in every respect. On Saturday afternoon last Mr. Henry Steel went out to his barn. A large copper snake lay coiled upon the floor, but was not noticed by Mr. Steele.

The reptile made a ferocious attack upon the gentleman and sank his fangs into his leg. Almost frantic from fear he at once sought a physician who administered the usual dose—a quantity of whisky. This had the desired effect, and from latest accounts the man was out of danger.

NATIONAL GUARD INSPECTION.

The Feature of Yesterdayat CampSheridas a Very Fine One.

SPECIAL TELEGRAM TO THE DISPATCH.1 Mr. GRETNA, August 14 .- The brilliant display yesterday made by the State cav-alry at Camp Sheridan has been followed to-day by an inspection of the several batteries of the National Guard now here. The drill of the cavalry was very fine. The National Guard occupied a po-sition in the center, with the

United States troops on either flank. Colonel Carpenter handled the command with skill, and the National Guard received high encomiums for the manner in which they executed the different evolutions. The United States cavalry were perfect, and every effort was made by both troops to assist the National Guard in their movements. Captain Perkins, of the Governor's troop, was struck at his right knee by the sightmaker and slightly injured. He was detailed as officer of the day for to-morrow, but will be excused.

Adjutant Hastings has no definite indications when the review will take place. It is expected, however, to come off to-morrow, when General Schofield is expected to arrive in camp. they executed the different evolutions. The

The United States regular officers to-night visited Colonel Hudson's headquarters, and, upon returning, visited the city troops' headquarters. They are making every effort to return the cordial welcome extended by

the National Guard, and are doing it effectively ively.

The Second Brigade Band gave a concert this evening, which was attended by a large number from this city.

Colonel Magee, of the Eighth Regiment is in camp at Colonel Hudson's head-

quarters.

The rain interfered with the dress parade this evening, and a large number from the camp visited the park. Every indication points to a great time in camp to-morrow, when Governor Beaver and General Schofield are expected to be present.

TWO EMPERORS TOGETHER.

They View a Sham Battle and Visit Emperor William's Tomb.

BERLIN, August 14.-Emperor William and the Emperor of Austria left Berlin at 7:45 o'cleck this morning for Spandau, where a sham fight took place. Four battalions of troops crossed the Havel river, which at this point is 450 meters wide, on a bridge constructed of 90 pontoons. The building of the bridge and the passage of the troops were accomplished in a remarkably short time. The battle took place on the heights south of

Spandau. One division of the ten battalions used the new smokeless powder, while their opponents used the old style of powder. The contrast between the effects of the two explosives was striking, the troops using the old powder being completely enveloped in smoke. The action ended in the western force being thrown back on Spandau. After the battle Emperor William called the officers together and existence the the officers together and criticised the

The two Emperors lunched in a tent that had been specially erected on the field for that purpose. They returned to Berlin at 1 o'clock. In the afternoon Emperor William and his Imperial guest visited the Friedenskirche, where the Austrian Emperor laid a wreath upon the coffin of the late Emperor Frederick.

Their Valuables. ATLANTIC CITY, N. J., August 14.—It has just leaked out that while the yacht Manatee was lying here in the inlet on Sunday night, with Senators Quay, of Pennsylvania; Fassett, of New York; Goodloe, of Kentucky; Jacob Wildeman and ex-Sheriff Leeds, of Philadelphia, on board, an Inlet pirate boarded the vessel at the dead of night and made a considerable haul. Mr. Fassett's watch was stolen and \$30 in cash was taken from another pocket. Senator Quay lost very little. Wildeman was relieved of

a \$150 watch.

The robbery is thought to explain the sudden breaking up of the trip at New York. The police are working on the case and expect to recover Mr. Fassett's watch.

SANFORD'S GINGER ON THE RAMPAGE

CHANCE FOR A DUEL

Acting Postmaster General Clarkson

and a Southern Editor

PASS THE LIE BACK AND FORTH. No Call Has Yet Been Made for Pistols and

Coffee for Two, but

THERE'S AN EXCELLENT OPPORTUNITY.

The Editor Says the Administration Tries to Deceive the Public.

The controversy between acting Postmaster General Clarkson and the Atlanta Constitution has reached that point where each calls the other an unmitigated liar and neither will retract. No challenge has yet passed between Mr. Clarkson and the Southern editor.

ATLANTA, August 14.-In reply to the statement of Acting Postmaster General Clarkson in reference to the app the negro Penny to a position in the Atlanta postoffice, the Constitution will say to-morrow in a double-leaded editorial: "That the authorities in Washington are determined to distort the facts relative to the appointment of the negro, Penny, to a place in the Atlanta postoffice, is clearly shown by the telegram which we printed yesterday. Nearly every statement attributed to Acting Postmaster General Clarkson in that telegram may justly be regarded as a deliberate attempt on the part of an official supposed to be close to the administration to de the public with reference to an event that

"Mr. Clarkson says that the Atlanta postmaster, General Lewis, appointed Charles C. Penny, who stood at the head of the civil service list of eligibles. This is false. When Lewis appointed Penny be was the lowest in a list of two, and Lewis did not discover until afterward that Sturgis, the white applicant, was not eligible, for he appointed him to a clerkship in another department next day. Lewis himself says that he appointed Penny to the position in the Registry Department because he would there be less liable to come in contact with the public, but Mr. Clarkson says that Penny was assigned to the work in the Registry division, not in the same room with the young lady, but in another. The impression here sought to be left on the public mind is false. Ex-Postmaster Renfroe, who knows a great deal more about the workings of the postoffice here than Lewis, says that the clerks in the Registry Department are necessarily was the lowest in a list of two, and Lewis

HAS BECOME NOTOBIOUS.

BROUGHT INTO CONTACT and association. Mr. Clarkson says that the young lady and her father, who was Superintendent of the Registry Division, and had the assignment of clerks, both re-signed because a negro had been appointed to a place in the office. That this is abso-lutely false is shown by Mr. Clarkson himself, who goes on to say that there were five negro clerks in the postoffice under the

emocratic postmaster.
"This attempt at whitewashing which ema-"This attempt at whitewashing which emanates from Washington will not be successful. The people of Atlanta know what
they are about, and in this progressive liberal city public sentiment is never at fault
in matters of this kind. If all that Mr.
Clarkson has said is true, how is that Mr.
VanWinkle, a Republican, refuses to remain on Mr. Lewis' bond? If the postmaster did not violate the civil service law,
how is it that Judge Henry B. Tompkins
comes off his bond on that very ground and comes off his bond on that very ground, and shows that the appointment of the negro was deliberate and inexcusable? The Consti-

A telegram from Washington says that the above was shown to Acting Postmaster General Clarkson to-night, and he was asked what he had to say in regard to it. He said: "I have no wish to follow the matter up. I stated the official facts, the literal truth. The Constitution seems to have been the original and inspiring medium of the whole sensation, gotten up purely for partisan effect, as an appeal against the appointment of colored people to office. The facts are as I stated them. Penny was drawn from the list of eligibles. He was put in the registry division, where the, white girl's father, as Superintendent, hadi the assignment of all clerks. The Superintendent first asked whether he could be kept for four years. The postmaster told himthat he could not tell him that. He then resigned. It seems he was willing to work four years with a colored man, but not a few months.

THE BOND TROUBLE. "There has been no trouble as to Post-master Lewis' bond. While one gentleman may have asked to withdraw from it, several other good men in Atlanta, native Southother good men in Atlanta, native South-erners, men of courage, not afraid to stand by a man in a right position, volunteered to go upon the bond, and made it much better than before.

"It is no wonder that since the story has gone to the country there is an attempt on the part of Atlanta to explain. The truth is, Postmaster Lewis did nothing more than is, Postmaster Lewis did nothing more than was right, and no amount of misrepresentation on account of race prejudice can distort the actual facts into anything else than the truth. The postmaster, instead of trying to put the colored clerk at the same deak with the white girl, as the Atlanta papers first printed it and sent it North, sent him to the superintendent of the Registry division, who had the assignment of clerks, and moreover was the white girl's father, and the colored man was

PUT IN ANOTHER ROOM. "There was no more justification in the father and daughter resigning than there would have been if they had resigned when the Democratic postmaster had five negro clerks in the same office.

"The Constitution admits that there were constitution admits that there were

only two men on the eligible list. The vacancy to fill was in the Registry division,

tor which the negro was qualified. The other man was chosen the next day for another vacancy in the office, and which vacancy he was more competent to fill "The spirit of the Constitution, and those it represents, simply represents those who are unwilling to accept the negro as a citizen, and who are unwilling to let the colored people show their capacity to hold clerkships or other Government positions."

Splitting on the Balt. We had long since voted her the prettiest girl in the boat. This would have been an offset for poor luck at fishing if she had only known it, but we weren't saying a word for fear of spoiling her, and by and by she looked up to the grizzly old captain and

"Captain, shouldn't I spit on my bait to

"Guess you should," he replied.
"Lemme put on a fresh shrimp and then

"Yes."
"All the spit I can?"

"Yes."

She held the hook within three inches of her nose, twisted her tongue two or three times, and then gave a "hu-chool" We saw something fly overboard, heard a scream of despair, and next moment the prettiest girl fell in a heap in the bottom of the boat. She had thrown both plates of false teeth out of her head into 20 feet of

"What's that?"

"They are using it on their shoes now."

"On their shoes?"

"Yes, and the ladies must be given credit for having made a valuable discovery. The ingredients of vaseline have a wonderful effect on fine leather, and it is fast taking the place of all the compounds manufactured for softening the shoes. Take a pair of shoes that have become stiff and uncomfortable by constant wear in the rain and apply a coat of vaseline, rubbing it in well with a cloth, and in a short time the leather becomes as soft and pliable as when it is taken from the shelves of the shoe dealer. Yes, indeed, this rainy weather has caused quite a boom in the vaseline trade."

Catarrh is a disease that affects children as well as adults, and often at a very early age. It is the direct cause of most of the consumption of this climate, and not infrequently the disease develops into consumption with children under 10 years of age. The four physicians associated with the Catarrh and Dyspepsis Institute have for years made a special study of catarrh and dyspepsia and diseases of women.
